STOP Working For Your Money!

Discover This Easy Passive Income Vehicle That Can Bring You A Constant, Ever-Growing Flow Of Cash... With Little To NO Effort On Your Part!

WEALTH-BUILDING MYTH:

If you want to get wealthy, you need to work harder, longer, and more.

WEALTH-BUILDING FACT:

By implementing just one passive income vehicle, you can bring in much more money than you are right now, while working the same amount... or even far less.

In today's volatile, every-man-for-himself economic climate, it is absolutely critical that you find ways to secure your own financial future. In this information, you now hold, you will find out how surprisingly easy it is to create an additional income stream to bring you more money NOW and help you build an ever-growing cash flow that can free you from dependence on a job, employer, institution, or bureaucracy.

Dear Friend,

Are you tired of working as hard as you can at your job, but still not having as much money as you want or need? Have you wondered how it is that some people with the same skills, talent, and number of hours in the day as you seem to have significantly more wealth than you do? Do you worry that in spite of the plans and provisions you've made, your retirement fund may not be enough to give you the kind of lifestyle you want once you stop working?

If so, then I am glad this flyer has reached you. The information it contains is going to alleviate

all of these fears and concerns, and make you more optimistic and excited about your present and future financial situation than you have ever been before. I'm going to tell you about a simple way for you to bring more money into your life without working any harder or differently than you are right now. I realize that's a claim which may arouse the skeptic in you. After all, most of us have been raised to believe that the road to wealth is paved with good old-fashioned hard work. Want more money? Work harder.

Well, there may have been a time when this was true. But if there ever was, it's long since passed. The hard truth is, in today's world there is often very little correlation between working harder and becoming wealthier. And really, that makes sense. Work is essentially the act of trading time for money. You have a limited amount of time; so it follows that the amount of money you'll be able to actively earn during that time is also limited. Juxtapose this fact with the rising cost of just about everything, from food, clothes, gas, and more, and it's easy to see why it's possible to work as hard as you can... earn a pretty good or even great salary... and still not have enough to support even a modest lifestyle.

The fact is, with the right tool, you can make yourself far more wealthy and secure than any bureaucracy, institution, organization, or pension plan ever could. For savvy, self-motivated people like you, this is actually quite exciting, because it means that YOU are in control of your financial future. This tool is the ultimate secret of all wealthy people, from well-known CEOs and entrepreneurs to all those millionaires next-door. It's the reason why they have so much more money and security than other people who are just as smart and who work just as hard or even harder. That's not to say that wealthy people don't work hard. On the contrary, they are often extremely dedicated and passionate about their jobs. The difference is that the money they earn from their work makes up only a part and often a very small part of the money that comes into their lives. The rest and most important portion of their wealth comes from what is known as **Passive Income**. Passive income is money that is generated automatically and regularly, from a source other than your 9-to-5 job. Create More Wealth and Financial Security Fast With The Kind Of Income That Comes To YOU Passively!

Don't Deny Yourself This Chance For Change!

People All Around The Globe Love Our Plan! Why... Because Our Plan Puts Money In Their Pocket Without A Lot Of Effort On Their Part! People *Really* Only Want To 'Work For The Money' If They Have To.... With Our Plan **No Work Is Required!** There is **No Selling!** And **No Recruiting!** So, Read On, And Find Out How You, Too, Can Join With Thousands Of Others To Better Your Financial Future! Over 200 Million People In The USA Alone Can Participate In *Shared Cash*....Then There's The World Population!

In case you didn't know.. The famous Carlos (Charles) Ponzi (March 3, 1882–January 18, 1949) is alleged to have started the first 'Ponzi Scheme'. A ponzi scheme being defined as a plan in which people are enticed to invest in a plan or company that will pay them a high rate of return on a plan or company that in reality does not exist, and investor's profits are actually paid out of funds received from future investors. Of course, we all know that even though the government considers all plans of deception, 'ponzi schemes', to be illegal, that, in fact, the US government operates, and has operated for over the past 100 years, the biggest ponzi in the world. Social Security being the most notable and easy to understand, wherein current contributors are paid out of the receipts of future contributors. The ponzi scenario has worked so well for the US government wherein all promises to pay are based on future taxes to be collected...that large corporations, private enterprise and individuals now use the same principle wherein current purchases and invoices are paid out of future revenues. The ponzi scenario **WORKS** and it works very well.... Thousands can attest to this truth! A ponzi scenario only becomes an illegal scheme when the truth is not disclosed up front.... *Shared Cash* does not fraudulently deceive and entice people to invest in something that does not really exist. *Shared Cash* tells you right up-front what is required of you... what you can receive in return... that you have a chance of making tons of money... or that you can lose your money. People are attracted to *Shared Cash* because they know 'up front' where they stand... the potential gains and/or the possible loss. **There are no smoke screens, no deception, false promises, false investments plans, or false returns. No MLM or 'Spend a little -Mail our flyer - Make a lot' promises.** *Shared Cash* is not a fraudulent scheme... but is the best "return on private-loan" opportunity!

The mission of *Shared Cash* is to strive to help each person break free from the shackles of social and economic slavery inherent in a system that is deliberately manipulating its people into a straitjacket of mediocrity and often poverty, by robbing them of their individual freedoms, privacy, rights and wealth. Our goal is to help each person remove themselves from a way of life of "Just Over Broke" and direct those affected towards freedom, success, privacy, and financial prosperity. We wish every person that participates freedom, success and prosperity in every area of their lives, and that their participation in *Shared Cash* facilitates these goals.

Shared Cash is dedicated to the utopian principle of people sharing with people thereby helping every person reach financial stability by their continued participation in a unique 'People Sharing Money' over, and over again strategy. *Shared Cash* has been, is currently, and will continue to be supported by current and new participants. *Shared Cash* is open and available to all people from all walks of life around the globe with one exception, and that is... Residents of the state of Kansas are not allowed to participate. Kansas authorities say no Kansas resident can participate and we are not allowed to solicit or promote in that state. Therefore, this offer is not available to Kansas residents. This is not an offer where registration is required prior to any offer being made. Void where prohibited.

Here's the plan for *Shared Cash* customers; It works like this example: You send a sharing loan ... let's say it is \$500.00... 5% of your loan, or in this example, \$25.00 will be deducted for administrative cost and account upkeep. The net balance of \$475.00 will be placed in the loan pool. Here the \$475.00 will multiply by **.25% per day for 120 days** ($475 \times .25 = 1.1875 \times 120 = 142.50$). The \$142.50 is added back to your \$475.00 principal and you are sent a check in the amount of \$617.50 at the end of the 120 day period. You are paid 30% interest in 120 days (.25% per day for 120 days) on 95% of your principal. Another Example: You make a loan of \$5,000; from that loan \$250.00 is deducted for administrative cost. You receive .25% per day for 120 days on 95% of \$5,000. That is, you receive $130\% \times \$4,750$ and a check in the amount of \$6,175.00 is sent to you after 120 days. You have just made a profit of \$1,175.00 in 120 days.

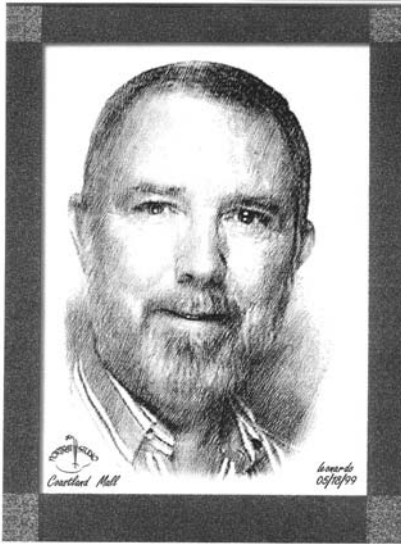

"Wow! This is great" says LB from Florida, "I can keep using the same \$5,000 over and overI get a profit of \$1,175..... from the same \$5,000.00. Unbelievable... but thank God it works!"

Just so you know... You can not just receive an interest check each month. This is not a savings account. You are making a loan to a private party. After 120 days you are sent a check that includes 95% of your principal loan plus 30%. However, you may make loans again and again as often as you like... even 2 or 3 times a week or daily. Loans must be made in US Dollars in multiples of \$10.00. Example: \$100, \$110, \$400, \$430, etc., up to \$50,000. Please... do not send odd dollars or cents. The minimum loan that will be accepted is \$100.00 and the maximum loan that will be accepted is \$50,000.00 per submission. Each loan you make will activate a new account for you with a different account number. A 5% administrative cost will be deducted from each loan submitted and activated for you. Personal checks will delay loan activation by 14 days. There is a \$50.00 service charge for any returned check. Money orders, or cashier's checks are preferred. Do Not use 'Signature Required' Delivery unless sending cash. Carlton Group/James Carlton is not liable or responsible if cash is lost or stolen in the mail.

Before You Die--Live! You are offered the opportunity to **receive up to 90% per year (.25% per day)**... compare that to the annual 2 to 3% at your local financial institution. Can you make money by participating in *Shared Cash*? Yes, you can! Can you lose money? Yes, you can! However, loss can only occur if people stop participating, and this is not an opportunity that people quit participating in. The continued participation of current lenders along with the attraction of this opportunity to the world-wide population, because of a 120 day submission to profit turn-around, means loss is not anticipated. *Shared Cash* makes sharing with others very rewarding!

Compound Interest, Gifts, Timely Stock Trades

Hi, my name is James Carlton and I am going to share with you a very simple and straight forward way to reach your financial goals.

I have for several years used techniques that, quite honestly, are available to anyone, but used expertly by myself, to acquire returns that most find astounding, unbelievable, and say "How in the world did you do that?"

It is all accomplished with Compound Interest and the generosity of gifts from others that know and realize.... the more you give... the more you get! I invite you to participate in all of the avenues for income that are given on our website located at www.30N30.us Multiple streams of income are your best bet for financial survival when the economy has a down-turn. Not only do you have an opportunity to receive way above average interest on loans you submit, you also have opportunities to connect with others around the globe and receive thousands of dollars per year in gifts that will all be tax exempt. The current IRS codes (January 1, 2009) exempts the first \$13,000 in gifts from any individual to another individual from being reported or taxable. If you currently trade, or are interested in trading, in the stock market be sure to check out the Stock Trading Robot.... it is absolutely amazing!

Shared Cash, aka MYM Club, was founded and is operated by Carlton Group/James Carlton. Since 1971 James Carlton has been at the same location and helps people by sharing methods, and opportunities that will help others if they help themselves. No man need go lacking when sharing takes place.

As is stated above, I have been doing this for a few years and came to realize a while back how I could tremendously help others with 100% certainty by sharing with others the same type of opportunities that have been successful for myself, and at the same time provide for myself and family simply because of the mass appeal.

Join Shared Cash NOW!

Please **read** the following **carefully** before completing the Loan Submission form.

By participating in *Shared Cash* and lending funds to Carlton Group/James Carlton, you agree that you are a private lender only. You are not an employee of *Shared Cash*, Carlton Group, James Carlton, nor a commissioned sales person, nor a contractor. No W-2's or 1099's will be issued.
